Erasmus+ Strategic Partnership project «Online Study Platform on Mediation»

Project number: 2016-1-LV01-KA203-022660

## Activity Task

### REPHRASING

#### The task:

One of you tells to the other a story about a person, whose behaviour is completely unacceptable to you (the story can be real or artificial – it does not matter) and how you felt about these events. For instance, your sibling promised to feed your pet while you were abroad, but never did. Or your neighbour every Friday have loud parties just next to your apartment. Or a parliament deputy is lying about actual situation in the economy sector of the country, etc. When you tell a story, use generalizations (for instance “always”, “never”, “totally”) and harsh language.

The person who listens to the story shall rephrase what is said, though using more neutral language, and reflecting emotions of the speaker.

After 15 minutes – change the roles.
